MINIMISE ALL. MAXIMISE ALL.

bizhub

C3110/C3100P

Giving Shape to Ideas

Compact achievers that match every office

bizhub c3110 

The A4 colour MFP with advanced functions and 31 pages per minute (ppm) outputs in a compact body.

* Shown with option.

bizhub c3100P 

The compact desktop A4 printer with 31 ppm performance in both colour and monochrome.

Compact enough to be placed within arm's reach

■ 446.5 mm (W) x 544 mm (D) compact body

With a width of just 446.5 mm and depth of 544 mm, the C3110 colour MFP and C3100P colour printer are small enough to be conveniently placed on a desktop.

Class-above image quality and functionality despite their compact sizes

■ 31 ppm (A4) high-speed outputs in colour and monochrome

In addition to high-speed outputs of 31 ppm (A4), the C3110 colour MFP and C3100P colour printer offer a maximum 850-sheet paper capacity (with optional paper cassette attached) to deliver outstanding performance with ample paper. Legal size paper*1 is also supported for larger size outputs.

*1 When feeding from the manual bypass tray or the optional paper feeding cassette.

■ Konica Minolta's advanced Emperon controller

Emperon printer controller developed with Konica Minolta's proprietary technologies provides a high-speed, high-quality and highly functional printing environment. High quality outputs are realised with page description languages such as PCL, PostScript and XPS, and high-speed processing of file formats such as JPEG, PDF and OOXML. In addition to regular printer interface and network printing, direct printing from USB memory devices*2 is also supported for smoother output operations.

*2 Optional Hard Disk HD-P06 is required.

Supported formats: PDF (up to 1.7), CPDF, JPEG, TIFF, XPS, CXPS, pptx, xlsx, docx, OpenXPS, PPML/GA2.2, PPML VDX

■ 1,200 dpi high-resolution mode

The C3110/C3100P adopt 1,200 dpi high-resolution mode, providing outstanding reproductions of small text and very thin lines for producing outputs of highly elaborate diagrams and small print documents.

* Output speed will be reduced.

■ ID (card) copy (C3110 only)

Both the front and back sides of small card size documents can be scanned and copied onto one sheet of paper to enhance convenience and save paper.

■ PageScope Mobile compatible*3

The C3110/C3100P are PageScope Mobile compatible, allowing direct printing from Android devices and iPhones/iPads. In addition, PageScope Mobile offers smooth connectivity with cloud services for printing data saved in cloud.

*3 Optional Hard Disk HD-P06 is required.

■ Standard equipped duplex ADF (C3110 only)

Duplex ADF is standard equipped on the scanner section for smooth, high-speed scanning of double-sided documents.

■ Super G3 fax compatible (C3110 only)

Super G3 faxing is optionally available for the bizhub C3110.

■ Scheduled to obtain ISO/IEC 15408 certification

Installing the optional hard disk will make the C3110 compatible with ISO/IEC 15408 certification. (Scheduled to obtain certification in October 2014.)

Outstanding environmental performance

■ Simitri HD toner with biomass

The C3110/C3100P adopt Simitri HD toner which offers less environmental impact during its production and reduces power consumption with low temperature fusing. The toner is also carbon neutral as it is produced with plant-based biomass materials.

■ One-touch power saving keys

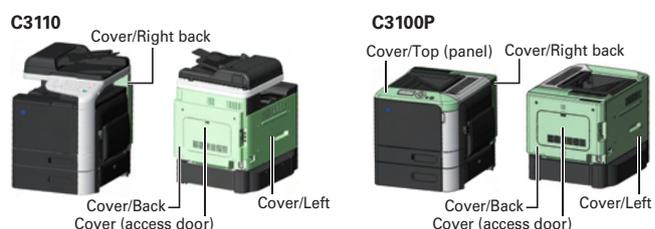

The C3110/C3100P let you save power easily by switching to Sleep mode or ErP Auto Power Off mode with a push of a key on the control panel.

*C3110: Sleep mode: Long push of Scan button
ErP Auto Power Off mode: Long push of Copy button
C3100P: Sleep mode: Short push of Power button
ErP Auto Power Off mode: Long push of Power button

■ Recycled materials and recycled PC for main unit

Environmentally conscious recycled PC is used in various locations of the main unit.

Excellent affinity with A3 devices and OPS compatible

■ Increased functionality with PageScope Enterprise Suite

The bizhub C3110/C3100P are compatible with PageScope Enterprise Suite (PSES)*1 which provides integrated management of all networked MFPs and printers from a single server. In addition to cooperative network management of the C3110/C3100P and A3 MFPs, PSES offers a variety of powerful functions including account management according to device, user and department, and increased security by authentication management*2 and privilege management. Furthermore, centralised device management, which reduces administrator burden, and Optimised Print Services*3, which proposes the optimal placement of office devices, allow you to use the devices efficiently while saving costs.

< Examples of supported applications >

PageScope Enterprise Suite

PageScope Authentication Manager Authentication management
PageScope Account Manager Account management
PageScope My Print Manager Pull printing

PageScope Mobile

PageScope Mobile Mobile printing

*1 Optional hard disk is required.

*2 Optional IC card authentication device is required.

*3 Optimised Print Services

Konica Minolta's consulting service that proposes the optimal placement of devices to streamline the office document environment and further reduce total cost of ownership (TCO).

Example of optimal placement with A3 bizhub MFPs

■ Main unit authentication and IC card authentication

In addition to main unit authentication, various IC card authentication devices*4 are supported including Konica Minolta's AU-201*4. Connecting PageScope Authentication Manager*4 allows integrated user management in mixed environments with A3 bizhub devices.

*4 Optional

C3110 model shown.

bizhub C3110/C3100P

*1 Output speed will be reduced.

*2 For bizhub C3110 only.

*3 Optional
